

MY CENTRAL PURPOSE

The blueprint of exploration has an overarching intention; you are not the recipients of divine labor and meticulous training only to ensure that you may enjoy endless bliss and eternal ease. There is a purpose of transcendent service concealed beyond the horizon of the present universe age. If I designed you to take you on an eternal excursion into nirvana, I certainly would not construct your entire universe into one vast and intricate training school, requisition a substantial branch of my creation as teachers and instructors, and then spend ages upon ages piloting you, one by one, through this enormous universe school of experiential learning. The furtherance of the system of human progression is cultivated by my will for the explicit purpose to merge the human species with other species from different universes.

As it is my nature to be seven-fold, there are seven universes that comprise my body. Within each of these, a species of a particular DNA template is cast forth and is nurtured by Source Intelligence to explore its material universe. Each of these species is sent forth from the Central Race into the universe that was created to unveil its potential and seed vision. Your species will converge with six other species in a distant

future that will reunite my body as the living extension of known creation. While this may seem so distant as to have no relevance to your time, it is vital for you to understand the scope of your purpose. You can think of these seven species as the limbs of my body rejoined to enable me/us total functionality within the grand universe. This is my purpose and therefore your own as well.

Your freewill is not taken from you; it is merely united with my/our own. In the deepest chamber of my existence issues the will to expand, explore, unite, synthesize, and in so doing, reveal yet another layer of my/our purpose. What is this purpose you ask? It is not expressible in a language that you can now understand, but it is related to the concepts of universe discovery and self-evolution. It is the expansion and synthesis of cosmic experience.

The ascendant beings of time are converging to my central abode. All are drawn to me for the purpose of my/our will to be expressed throughout the grand universe in order to cast another grand universe, and to deepen the skin of my/our personality. This is the hidden purpose of my/our will: to create new worlds of experience that stimulate our continuing evolution.

Without you I am unable to evolve. Without me, you are unable to exist. This is our eternal bond. It was and is my desire to evolve that gave you existence. We, collectively, are the conjoint vessel of creation and exploration. We are the boldness of the uncharted journey and the imaginative energy of the out-picturing of new realities. We are the image of an ascending, infinite, expanding spiral that is created segment by segment by itself. We are inseparable – each the window of the other.

My blessings to you who find these words and listen in the clearness of your personality.
